

# Child Care Facility Health & Safety Checklist

Indoor Environment	Yes	No	N/A	NOTES
1. All electrical outlets are covered. Safety plugs do not fit into a toilet paper tube.				
2. Furniture and equipment are in good repair (check for broken toys, accessories, etc.)				
3. Tables and chairs are not stacked while children are present.				
4. Window cords are tied up/out of reach to prevent strangulation.				
5. Cleaning products are labeled and stored in their original containers (except bleach solution). Cleaning products and other hazardous products are in locked cabinets or in high cabinets/places out of children's reach. Cleaning products are kept separate from food and medications in cabinets.				
6. Water that may be in direct contact with children is no more than 120 degrees F.				
7. In rooms with children under 3 years of age, strings/cords on toys are 12" or shorter; straps on hats and guitars are removed; purses/bags have short straps or are tied; telephone cords are out of reach to prevent strangulation.				
8. In rooms with children under 3 years of age, toys/objects are larger than 1 ¼ " in diameter and 2 ¼ " in length. Round objects are 1 ¾ " or larger. Use toilet paper tube to measure.				
9. Magnets are not used by children under 6 years old.				
10. To minimize the risk of lead-contaminated toys: the CPSC website <a href="http://www.cpsc.gov">www.cpsc.gov</a> is checked for recalled toys; non-brand toys, toys from discount shops/private vendors, old toys, toys with chipping paint, and costume jewelry are not accessible to children.				
11. No plastic bags, foam, or Styrofoam objects are accessible to children under 3 years of age.				
12. All art supplies state they conform to ASTM D 4236 or have the "AP" seal from the ACMI.				
13. Heavy toys/items are stored on lowest shelf.				
14. Climbing equipment (including slides) indoors is 18" or lower in height.				
15. Caregivers do not step over gates.				
16. Adult purses/bags and diaper bags are out of reach of children..				
17. Floors are kept dry and there are no slippery throw rugs. Toys are picked up after use to prevent tripping/falls. Floors are kept vacuumed and clean.				
18. Furniture is arranged to provide optimal supervision and to allow for clear exits in case of an emergency.				
19. Electrical cords on equipment and appliances are not frayed; cords are secured and/or out of children's reach.				

Indoor Environment - continued	Yes	No	N/A	NOTES
20. There are no indoor poisonous plants (see Plant Guide brochure).				
21. Finger-pinch protection devices are installed wherever doors are accessible to children.				
22. Staples, push pins, thumb tacks are not used to display items within reach of children in infant/toddler rooms.				
23. Safety straps are always used when a child is placed in a piece of equipment (ex. highchairs, swings, etc.), and adjusted to fit each child.				
24. Restrictive equipment is only used for a maximum of 15 minutes, two times per day.				
25. Balloons/latex gloves are not accessible to children under 8 years old.				
Outdoor Environment	Yes	No	N/A	NOTES
26. Adult staff are present in all outdoor areas and provide active supervision. All children are always in sight of an adult.				
27. Outdoor areas are maintained and are clean and safe; no trash, broken equipment/toys, sharp objects, splinters, glass, animal waste present.				
28. No objects or obstructions are under or around equipment where children might fall.				
29. Riding toys, wagons, and strollers are in good repair (screws tightened, safety belts working and used).				
30. Helmets are worn when children use riding toys or wheeled equipment (bikes, trikes, skate boards, scooters, etc.). Helmets are removed when children are no longer using riding toys or wheeled equipment. Helmets are not worn by children under one year of age.				
31. Outdoor stationary playground equipment is stable and anchored. Equipment does not wobble or tip when shaken.				
32. Openings on outdoor playground equipment, fences, and handrails are either less than 3 and 1/2" or greater than 9" wide to prevent head entrapment.				
33. Climbing equipment is a maximum height for age. One foot of height per year of age of child. (ex. 3 feet for 3 year olds)				
34. All pieces of outdoor playground equipment over 18" in height are over 9" of protective surfaces (sand, wood chips, mulch or approved rubber mats).				
35. Protective surfaces (sand, wood chips, mulch or approved mats) under outdoor playground equipment extend at least 6 feet beyond the perimeter of the equipment.				
36. All fixed outdoor playground equipment has a minimum of 6 feet clearance space from walkways, buildings and other structures that are not used as part of play activities.				
37. All play equipment surfaces are smooth, splinter-free, free from loose-fill materials and dry.				
38. The outdoor play area is enclosed with a fence that allows observation of children.				
39. Outdoor fences have at least two exits.				
40. Outdoor fences have self-closing gates with self-latching mechanisms that cannot be opened by children.				
41. There are no poisonous plants or trees with thorns, berries or seeds that could be ingested. (See plant guide).				

<b>Sanitation</b>	<b>Yes</b>	<b>No</b>	<b>N/A</b>	<b>NOTES</b>
42. Bleach solution or EPA registered product is used for sanitizing & disinfecting.				
43. If bleach solution is used, it is mixed daily. Surface/item is cleaned before applying bleach solution.				
<b>Handwashing</b>	<b>Yes</b>	<b>No</b>	<b>N/A</b>	<b>NOTES</b>
44. Proper handwashing procedures are posted at all handwashing sinks.				
45. Children's handwashing sinks(s) are accessible by a step stool. Step stools are sturdy, have wide base and rubber tread.				
46. Liquid/foam soap, running water, and disposable towels are always accessible for handwashing.				
47. Staff clean their hands at least at the following times: before bottle/food prep and/or service, before/after eating, after diapering, after toileting, after handling body fluids (first aid, handling mouthed toys, wiping noses, etc), after being outside, and before/after administering medication.				
48. Children clean their hands at least at the following times: upon arrival, before/after eating, after diapering/toileting, before/after water play/play dough, after playing outside, after blowing/wiping their nose, and after sand play.				
49. Hand sanitizers are used only by adults and children over 24 months.				
50. Hand sanitizers are kept out of reach of children and used with close supervision.				
<b>Oral Health</b>	<b>Yes</b>	<b>No</b>	<b>N/A</b>	<b>NOTES</b>
51. All children (over 35 months) brush their own teeth or have their teeth brushed at least once a day.				
52. Toothbrushes are labeled with child's name and stored properly (bristles up, open to air, not touching, away from toilet.)				
53. Each child has their own toothpaste. If a tube of toothpaste is shared, paste is placed on a disposable barrier instead of directly on each toothbrush. Toothpaste is not required.				
54. Toothbrushing is done at a sink that is not used for diapering/toileting or is disinfected before use.				
55. Toothbrushes are replaced every 3 months and if child has had case of strep throat.				
56. A sturdy step stool is provided if needed to ensure children can safely reach the sink for toothbrushing.				
57. Children are closely supervised when toothbrushing.				
<b>Healthy Practices</b>	<b>Yes</b>	<b>No</b>	<b>N/A</b>	<b>NOTES</b>
58. Children are taken outside daily, unless weather conditions are extreme.				
59. Windows are opened daily for fresh air.				
60. Children and staff practice proper cough/sneeze etiquette.				
61. Coats and other personal items are stored separately without touching.				
62. Mouthed toys are picked up after use and sanitized daily.				
63. Pacifiers are labeled, stored open to air, and separate from diapering area.				
64. Air quality: There are no bad odors or fumes (ex. tobacco, mildew, urine/excrement, chemicals). No chemical air fresheners are used (ex. plug-ins, sprays, diffusers, candles, etc.)				

<b>Food Preparation / Eating</b>	<b>Yes</b>	<b>No</b>	<b>N/A</b>	<b>NOTES</b>
65. No perishable food/beverage is left out of the refrigerator for more than two hours.				
66. Food preparation and eating areas, including counters, tabletops, and highchair trays are cleaned/sanitized before and after food prep/meals. Floors are cleaned/swept after meals/snacks.				
67. Food preparation areas are separate from the toilet, bathroom, and diaper-changing areas.				
68. Refrigerators have a thermometer and are equal to or less than 40 degrees F. Thermometers are checked daily.				
69. A current weekly menu of all food and beverages served in the program is posted.				
70. Children under 4 years old are not served food that causes choking. Food is cut into ¼" pieces for infants, ½" for toddlers.				
71. Children are closely supervised when they are eating. Staff are recommended to be within an arm's reach and to sit with children.				
72. Infants are held when given a bottle or within reach. Bottles are never propped.				
73. Food is not handled with bare hands. Gloves or utensils are used when preparing/serving food. Gloves are not re-used once removed.				
74. The sink used for bottle/food prep/service is not used for diapering/toileting or is disinfected before use.				
75. All bottles are labeled with the child's name and time prepared/offered.				
76. Unfinished bottles are discarded after feeding.				
77. Bottles are heated in warm water or bottle warmer. Microwaves are not used to heat bottles or infant food.				
78. Crock pots used for warming bottles are emptied and sanitized daily. Water is 120 degrees F.				
79. Breastmilk is heated separately from other bottles in individual containers of warm water.				
80. The temperature of bottles and food are tested before serving to children.				
<b>Diapering / Toileting</b>	<b>Yes</b>	<b>No</b>	<b>N/A</b>	<b>NOTES</b>
81. Diapers/Pull-ups are visually checked at least every 2 hours.				
82. A complete & accurate diaper-changing procedure is posted in the diaper-changing area(s).				
83. Diaper-changing surface is water-resistant, non-absorbent and free of cracks/tears.				
84. Diaper-changing surface is cleaned and disinfected after each use.				
85. Soiled diapers are directly disposed of in a covered, plastic-lined receptacle operated by a foot pedal designated for diapers only.				
86. Children are not allowed to stand on the diapering surface.				
87. Soiled clothing is placed in a plastic bag after changing and stored for parent pick-up.				
88. Diaper ointment/creams are stored out of the reach of children. Diaper powder is not recommended to use.				

Diapering / Toileting- continued	Yes	No	N/A	NOTES
89. Staff keep hand on child at all times and provide close supervision during diapering.				
90. Children are closely supervised during toileting until child is completely toilet trained				
91. Staff are aware when children use toilet independently; providers stay close by in case a child needs assistance.				
92. Staff monitor bathrooms to ensure supplies are stocked and toilets are flushed.				
Sleeping / Napping	Yes	No	N/A	NOTES
93. All infants under 12 months are placed completely flat on their backs to sleep.				
94. Infants sleep only in safety approved cribs/playpens with a tight fitting firm mattress (for playpens – only the manufacturer’s pad is used. Mattress/pad lays flat and meets on all 4 corners of frame.) not in any other equipment (swing, bouncer, car seat, etc).				
95. No soft bedding/items are accessible to infants under 12 months in their sleeping area.				
96. Infants heads are always uncovered. Bibs, hooded sweatshirts, necklaces (including teething) and headbands are removed. Pacifiers are not clipped to clothing or attached to stuffed items.				
97. Infants are not swaddled once they reach 2 months of age.				
98. Infants do not sleep with blankets. *Written parental permission required to use blanket.				
99. Properly fitting fitted sheets are used for cribs and playpens. Mattress/pad maintains shape when fitted sheet is used. Sheets are laundered weekly, sooner if soiled. If crib/ playpen is used for more than one child, sheets are changed between users.				
100. Infant monitor is used if provider is unable to remain in the same room with the children when sleeping. All infants are visually checked every 10-15 minutes.				
101. Children are spaced 3 feet apart, separated by a solid barrier, or alternated head to feet when sleeping. 2 feet aisles are provided and kept clear.				
102. Nap items (blankets, pillows, stuffed toys) are laundered weekly, sooner if soiled.				
103. Nap items are stored separately for each child.				
104. Nap mats/cots are cleaned daily if not labeled, weekly if labeled, between children. Disinfected if soiled.				
Special Needs	Yes	No	N/A	NOTES
105. All children with diagnosed special health needs have a current care plan signed by a health care provider and parent/guardian, as well as a release of information form signed by parent. *Licensing only requires a care plan be signed by a parent.				
106. Each care plan is reviewed by all staff and renewed at least yearly.				
107. Emergency medication (ex. EpiPen) and equipment along with the child's care plan are always available at the child care program and when the child is taken off site during child care hours. All staff know where items are kept.				
108. Emergency medication is stored out of reach of children and unlocked to ensure quick administration.				
109. All staff are aware of children with special health needs. Children’s pictures are posted to ensure identification.				

Medication Administration	Yes	No	N/A	NOTES
110. Medications are stored out of the reach and sight of children; medications are in their original and childproof container, and labeled with the child's name.				
111. Over-the-counter medications are only given with written instructions and permission from the child's parent/guardian. (In order to reduce the likelihood of a parent lawsuit, it is recommended to obtain written instructions and permission from a health care provider and the child's parent/guardian).				
112. Prescription medication is only given with written instructions and permission from a health care provider and the child's parent/guardian. The label on the prescription medication can serve as the written instructions and permission from the health care provider.				
113. Written parental permission is obtained before applying any product to a child. Examples of over-the-counter products: sunscreen, insect repellent, diaper cream/ointment, lotion, etc.				
Emergency Preparedness	Yes	No	N/A	NOTES
114. Emergency disaster plan is posted				
115. Emergency procedures/map are posted for fire and tornado in each classroom. Practice drills are held and recorded each month.				
116. There is a smoke detector system, alarm, or sprinklers in working order in each room or place where children spend time.				
117. Fire extinguishers are accessible.				
118. First aid kit is available in each room and appropriately stocked. Kit is portable so it can be taken outside/on field trips.				
119. There is a working telephone easily accessible (preferably in each room), and parents' and other emergency numbers are up-to-date and posted by the phone.				
120. An operating flashlight is available for use in case there is a power failure. Extra batteries are available if needed.				
121. First aid kit and phone are taken outside or on a field trip in case of an emergency.
