

Special Dietary Needs

North Dakota Early Child Care Century Code states that food supplied by child care operators must meet USDA standards. Special dietary needs must be considered when planning menus. If the meal pattern is changed for a child due to food allergies, it is recommended that a medical documentation for "special dietary needs" be on file. The child care health consultant or food program can help you replace a food with a safe and nutritious substitution.

Part A: To be completed by parent/custodian

Name of child: _____ **Date of Birth:** _____ **Age:** _____
