

Understanding Preschoolers

Level 1 Online 2-Hour Training

**THURSDAY, FEBRUARY 20TH • 6:30-8:30 PM CST
ONLINE (ZOOM)**

This online course is designed to help you better understand the world of preschoolers and how to support their development in meaningful ways. This course will provide valuable insights into the cognitive, motor, emotional, and social milestones of children aged 3-5 years old.

You will explore key developmental stages and learn how to identify and nurture each child's unique needs. The course will also delve into practical strategies for creating an environment that fosters learning, growth, and connection. Using theme-based teaching approaches, you will discover innovative ways to embed educational experiences throughout the daily routine.

Additionally, the course will guide you in establishing preschool-appropriate routines and rules that not only promote structure but also strengthen relationships.
