SEEDS OF LEARNING FOR INFANTS & TODDLERS

SEEDS of Relationship-Based Infant-Toddler Caregiving is based on years of research about child development, brain development, and how trusting adult-child interactions help children learn. This cohort will empower caregivers by increasing their understanding of infants and toddlers, how their brains are developing, and how to build the connections and trust that are essential to a child's growth and development.

Programs will engage in

- Four In-Person Trainings:
 - Feb. 24 9:00-11:30
 - March 17 9:00-11:30
